

CITY MATTERS.

Miss Fox's Kindergarten opens May 4th, at the Central Bldg., South Center street.

Dr. W. T. Patterson leaves this evening for Bryan, O., his former home, to visit his parents. He will return in a few days.

The Springfield Gun Club is indulging in a practice shoot at the Fair Grounds this afternoon, preparatory to the tournament next month.

Sells Bros circus passed through here last night going from Urbana to Washington O. H., and will go through again tonight, en route to Troy, where tomorrow's stand will be made.

U. S. detainer. Bennett is anxious to find the party who exchanged hats with him yesterday at a funeral, taking his five dollar Dunlap, just out of the store, and leaving a fifteen-cent shoddy shoe, very aged.

At Xenia, John Ryan stabbed Roper Turner, of near Jamestown, three times in the face and once in the neck with a pocket knife while engaged in a row Tuesday afternoon. The wounds are not thought to be fatal. Ryan was arrested.

The reported proceedings at last night's meeting of Council will be found of unusual interest. Several matters of public importance were brought. Not the least was the proposition of the electric going nuisance at the Center street railroad crossing.

Mrs. J. C. Buxton and family, who have been making a tour of Europe for the past year, expected to arrive home early next month, but word was received here today by friends that Mr. Ben. Buxton is lying critically ill and their return will depend upon his early or late recovery. His many friends here hope that he will soon recover.

The Allen girl, supposed to have eloped or been abducted from Sabins, returned to her home about midnight Monday. It is thought her friends were so hot on the trail the abductors found no opportunity to spirit her away. Fetrich, the Columbus man, denies the stories in the newspapers, so far as they reflect upon him, and promises an explanation.

Again Victorious.

The Springfielders went to Dayton yesterday and succeeded in again downing the Gem City. Frank Mitchell, of this city, pitched a fine game for the home club, and received excellent support behind the bat. The Springfielders played a loose game in the field. The Dayton got onto Mitchell in the third inning, when they secured six runs, but after that they were unable to hit him. In the eighth inning he did his finest work. Two men of the Gem City were on bases and no one out. Mitchell struck out the next two men and the third fouled out without the side scoring.

The Dayton Journal has the following account of the game:

The game was at park yesterday between Dayton and Springfield, was witnessed by a small audience and resulted disastrously to Dayton. The wind was high and held the ball in the air, aiding the pitchers in getting under flies. The batters were also on a bad footing, affording the spectators some amusement. Crogan as usual displayed his proficiency with the stick, and in the field cutting a run off at home plate. Harper three times to third base and put his man out.

The victors started out with two singles, and the runs scored on error of Hughes. In the second inning, error, followed by Harper's two batters, then followed base on balls and passed ball, allowing three runs this inning. A hit and good base running gave them another in the fourth inning. Gave them another in the fourth inning. Gave them another in the fourth inning. Gave them another in the fourth inning.

The second inning, error, followed by Harper's two batters, then followed base on balls and passed ball, allowing three runs this inning. LEMON GINGER SNAPS.
SCROLL BARS.

These are known to the trade everywhere as choice goods, and are made in the best manner of the finest materials. Better and cheaper than home-made.

THE J. D. STEWART & CO.

A HEROIC DEED

Surpassing Even the Deeds of Prowess of Every-Day-Life.

A few months ago the country was thrilled with the account of a girl who, at the risk of her life, when the whirling flood of the swollen river was wringing great bridges from their foundations, skipped along the ties of a western railway, lantern in hand, and saved a train from certain destruction. The State of Iowa awarded her a suitable medal for her bravery. In this instance it was a child who saved the lives of many adults, but as a rule, the life of the child is in the hands of older persons.

In November, 1883, a little eight-year-old son of Danish parents was suffering with diphtheria. The attack was not severe, but he did not seem to rally after the throat appeared perfectly well. Nausea, headache and low fever succeeded the sore throat, and two or three days afterwards his limbs began to swell mysteriously. The skin became very dry, vomiting was frequent, nose-bleed was persistent, and nothing would stay in his stomach. "It was evident to our minds," says Mrs. Thomsen Schmidt, wife of the vicar-general of Denmark, residing at New York, "that some mysterious malady was working ruin in his system. Our physician said he had the terrible diphtheria disease. To our suggestion that a certain preparation be tried, he made no objection. We gave him six doses a day, two teaspoonfuls at a dose, in sweetened water. It remained upon his stomach, and within a week there was marked improvement. The bowels became regular without the use of cathartics, and the causes diminished; in three weeks there was a subsidence of the dropsy, and by the middle of May the limbs were perfectly normal. He had a good appetite, and could take three pints of milk daily. By the first of May he was up, and though he had spent six months in bed, he did not feel particularly weak. In July he was out, feeling perfectly well, and in July he weighed eight pounds more than he did before he was taken sick. Today there is only a slight unfavorable condition in his system, and the physicians say we have every reason to believe the child will be perfectly well."

Mrs. Schmidt is certainly to be congratulated on the good results which followed the use of Warner's safe cure, and she says: "We feel bound to make this truly wonderful result known, and are perfectly willing to have this letter published. Gratitude as is the result wrought, it is by no means singular, or the deeds of children, who seemed weak and puny, have had their entire nature changed and their future assured by a prompt use of the same preparation. Such results are transmitted by inheritance, arise from children's epidemic diseases, the evil effects of which often prove fatal in their later life. The secret of the ill-health of many children is that their kidneys and liver are not performing their natural work."

It was a brave feat of the brave girl who crossed the swollen stream on the bridge to save the lives of the passengers; but it is a braver deed, and one worthy of wider recognition which, seeing the peril awaiting childhood, free from prejudice, with a purpose only to save by any effective means, preserves to us the lives of our children.

The Pompey Stone.

The famous Pompey stone, now in the state museum at Albany, is the most noted of a very limited class of relics. It is a boulder about fourteen inches long and twelve wide, bearing on its face an unmistakable figure and inscription. It was discovered at Waterville, in the township of Pompey, not far from Manlius, Onondaga county, about sixty-five years ago. Historians and scientists have speculated on its origin without positive results, and it still remains as perplexing an enigma as when first brought to notice. The figure in the center of the stone represents a serpent twining about the trunk of a tree. At the left is plainly engraved Le De—VI, 1526.

On the right of the serpent is a capital L with several inferior marks, doubtless meant for small letters, beneath which are two peculiar characters that look very much like Indian totems.

This stone is supposed to furnish the earliest known evidence of the presence of Europeans on the soil of New York state, and to have been designed for a grave monument for some unknown Spanish adventurer who, with his comrades, had penetrated the wilderness in search of gold during the early part of the sixteenth century.—Lockport Post-Express.

The Massachusetts Legislature has decreed that liquor sellers must suspend sales between the hours of 11 p. m. and 6 a. m.

Massachusetts has more than one hundred women serving on her schools boards this year.

GLEANNINGS.

David Davis despises rolling-skating.

George Eliot's biography has already brought in to its publisher \$40,000.

The Rothschilds never employ a man who has the reputation for ill-luck.

The desire for Egyptian curiosities has assumed the proportions of a craze in London.

Miss Lulu Hurst has made \$80,000 within a year out of her wonderful "magnetism."

Brooklyn is said to contain more gambling houses than any other city in the country.

The city of Berlin budget will this year cover \$15,000,000. It is the highest on record.

The twenty-fifth child has been born to a man and wife in Dillon township, Tazewell county, Ill.

Gen. Phil Sheridan has a recipe for curing a cold. It is to stay at home and sit in front of the fire.

A mule owned by a farmer in Terrell County, Ga., has been actively at work for the past thirty-four years.

Silver and gold hoop bracelets are again worn outside the glove. Three or four are often worn on one arm.

It was discovered after his death that Signor Brignoli had barely enough money to buy the necessities of the sick room.

The new treasurer of Hershersham County, Georgia, has given his bond for \$18,000. There is just \$3.50 in the treasury.

Cameron, the correspondent who was killed in the Sudan, was unmarried, but his aged mother was dependent upon him for support. The London Standard, for which he was working, has granted her a handsome life pension.

One of the funny bills in the California Assembly is one which gives to any young man under twenty-one years of age, who learns a trade by serving an apprenticeship for three years and is a moral young man, \$250 out of the State Treasury.

The latest thing in stockings does away with garters or supporters above. The hosiery is kept in its place by lacing from under the knee to the upper bulge of the calf. Thus the circulation of the blood in the limbs is not impeded.

The New York World publishes the portrait of the handsome woman in New Jersey, whom upon the Buffalo Express cruelly comments: "It represents a person who is nearly up to the average standard of feminine beauty as recognized in the United States."

An eccentric individual residing in Detroit keeps his face clean shaven and his hair clipped close by singeing, and his cheeks, chin and upper lips are marked with many scars where they have been seared by the red-hot plate or steel with which he plays the barber.

During a lifetime of fifty years a man on the average spends 6,000 days in sleeping and the same amount in working; 2,600 days in eating, 800 in walking, 111 5/2 days, and the remainder of the half century—nearly nine years—spent in recreation and amusement.

In one of George Eliot's letters, to be found in the third volume of Mr. Cross's biography, she refers to a remark which Prof. Huxley made on those good people of London who have pursued him with false witness in their anti-vivisection zeal. He declares himself to be especially vexed with the "profligate lying of virtuous women."

The oldest apple trees West of the Missouri River are said to be those on the Algonquin. Some of them are over a foot in diameter. The seeds were brought over by Rev. Mr. Spaulding, the missionary who was stationed at Lapwai many years ago, and father of Mrs. Eliza Warren, the first white child born on the Pacific slope.

By the recent decision of a Maine Judge all ponds in that State containing more than ten acres are public ponds, and the right to cut ice upon them free to all. In this particular the owners of the shores have no greater rights than other persons who can reach the ponds without trespassing upon the land of others.

London women and girls who make fashionable society have entirely abandoned the bang and all methods of wearing the hair down on the forehead. They brush their hair straight back, showing the whole of the forehead and temples, knot it carefully on

Chronic Dysentery.

Mr. James Brannan, Second avenue, Pittsburgh, Pa., writes: "For two years I have been constantly troubled with a chronic dysentery, or dysentery, having had, on an average, from twenty to twenty-five passages every twenty-four hours, and every one bloody. I had thoroughly tried all the prominent physicians in Pittsburgh, was twice in the West Penn Hospital, the first time thirteen weeks, and though I left it much better, yet in five days I was as bad as ever. I then tried two other great doctors in this city, and one of them finally assured me I was not going for this world, and advised me to write to my friends about it. I next went to Dr. Hartman, without the least confidence that he could do anything for me. He examined me, smiled, and said, he could stop the bloody discharges in less than two weeks, which he did with PERUNA, and I have now been entirely well for several weeks, and never felt better in my life, though I am still taking his PERUNA. I will take it forever I need medicine."

Mr. Patrick Burns, Pittsburgh, writes: "I have suffered intensely from piles and chronic dysentery. I was treated by five of the best physicians and surgeons in the city of Pittsburgh, and with all grew constantly worse. Finally three of them said my only hope was an operation. This frightened me, and I went immediately to Dr. Hartman, who has entirely cured me with PERUNA. I have been at work now for three months, and never in my life felt better. Call and see me at corner of Twenty-seventh and Mulberry streets, Twelfth ward, Pittsburgh."

One of the funny bills in the California Assembly is one which gives to any young man under twenty-one years of age, who learns a trade by serving an apprenticeship for three years and is a moral young man, \$250 out of the State Treasury.

London women and girls who make fashionable society have entirely abandoned the bang and all methods of wearing the hair down on the forehead. They brush their hair straight back, showing the whole of the forehead and temples, knot it carefully on

the very top of the head, and wear it without the faintest suspicion of a curl or crimp.

The fellow who threatened to make up his face at the other fellow's sister had better beware if any bill delinquent suits is passed by the Legislature. It provides that whoever answers another by looks or gestures is guilty of assault. It is a question whether, under such a law, the carrying of an extremely homely countenance wouldn't be actionable.

Superintendent Bennett, of Piqua, Ohio, has been investigating the extent to which tobacco is used by boys in city schools. He finds that in two grades of 70 boys from twelve to fifteen years old, 31 habitually smoked cigarettes, and only 7 none of them ever had smoked. Of 96 boys from ten to twelve there were 68 smokers, and in the A B C class many had begun the practice.

Prof. E. C. Marshall says: I have had occasion lately to read up in French everything that I could find on the subject of bridges. I discover that the French have more suspension bridges than any nation on the globe. Their engineers are putting up suspension bridges everywhere, and at least one of the structures approximates to the size of the Brooklyn bridge. So numerous are such bridges in France that it is impossible to secure an accurate list of them on this side of the water.

A company has been organized to build an artificial lake at Northfield, Staten Island, to cover 1,000 acres of land and hold 10,000,000 gallons of water. Hundreds of brooks and springs are empty into the lake, and it will have ten miles of woodland for a water shed. The dam will be 4,400 feet long and twelve feet high. It is proposed to convey drinking water to New Jersey by means of iron aqueducts laid across Staten Island Sound.—New York Journal.

The place where the gunboats lay when blockading Vicksburg is now a huge sandbank, the course of the river having considerably changed.

The Emperor Dom Pedro of Brazil has become a convert to the theory that yellow-fever may be prevented by vaccination.

A Calhoun county man, during a recent visit to a prohibition town, ran upon what is known as a "blind tiger."

The "blind tiger" is a house where the people can get whisky but do not know from whom they buy it. There is a hole in the side of the house with printed instructions above it. You place your bottle head money in the hole and both disappear, but in a few minutes your bottle returns full of whisky. No word is spoken and not a sound is heard except the rolling of the bottle.—Calhoun (Ga.) Times.

Don't fail to visit the Art Embroidery Exhibition at N. G. Hamilton & Co's music store, 9 East Main street, tomorrow, Friday and Saturday. It consists of household draperies in new and unique designs of raised work, snow balls, sunsets, thistles, cockscomb and arched work, etc., etc. This is the finest display of artistic embroidery ever seen in this city. J. S. Oldham & Co., Agents.

Change of Plans.

The store of Mr. O. B. Williams has been removed from 22 South Market to 22 East Main street, in the old Republic building.

Household Goods at Auction.

All the household furniture of Mr. B. Holway will be sold by auction on Thursday, April 30, at his residence, corner Market and Mulberry streets. Everything will be sold without reserve.

There has been an advance in price of "Golden Fleece" flour. Notice prices in advertisement on fourth page.

Manufacturers, Inventors and others desiring Models or Patterns of any description made, should call upon W. T. Parker, 39 West Washington street, where all kinds of Pattern Work is promptly and properly done.

Drawing and painting taught by Miss Dunlap at her studio, room 29 Mitchell block.

The Springfield Steam Dry Works does all kinds of dyeing, cleaning and repairing of Ladies' and Gentlemen's Wear.

Feather beds renovated and lace curtains cleaned and renewed at the Springfield Steam Dry Works, 21 North Center St. Remember all work is warranted. M. A. IHUO.
